Why is welfare & wellbeing important?

We all need a helping hand from time to time, and managing our own wellbeing is vital to enable us to be the best version of ourselves. The Welfare & Wellbeing Team are here to help you to achieve this, and empower you to get the most from your time at college.

Here are some of the things we offer:

- One to one wellbeing appointments
- Physical and wellbeing health check ups
- Wellbeing activities including yoga, meditation, social sports, massage and our ever popular visits from our therapy dogs Hubble and Stanley!
- 24 hour support for any welfare or wellbeing issues

Additional resources

As well as the services available in College, the following resources are also available in the wider University and the community:

- University Counselling Service
- Disability Advisory Service (DAS)
- Linked college GP surgery

Wait, so is this our student union?

- ☐ You might hear friends at other unis talk out their SU, or **student union**.
- ☐ Oxford also has an SU, but it is far more hands-off.
- ☐ Instead, each college's JCR is like a mini-SU
- ☐ This is better, because it's more personalised, more approachable, and offers better funding per head.
