

## State School Study Day: Medicine and Biomedical Sciences 2019

St John's College  
Oxford

Are you currently studying Chemistry, Maths, Biology or Physics at A-level (or equivalent) and interested in:

- studying Medicine or Biomedical Sciences at a top university?
- experiencing an academic taster day at an Oxford college?
- receiving tuition from two of St John's College's medicine tutors, Dr Sandra Campbell and Professor Zoltán Molnár?
- receiving up-to-date advice on preparing a competitive application to a highly-selective university?
- seeing what life as an Oxford student would be like?
- meeting like-minded people from all over the country?

**St John's College is excited to announce that it will be running a study day for Medicine and Biomedical Sciences for Year 12 students from state schools on Saturday 8th June 2019.**

### What does the day involve?

- Two taster lectures led by Dr Campbell and Professor Molnár
- A chance to meet and chat with current medical students at Oxford
- A choice of four additional activities (see reverse) aimed at helping prospective students through the application and admissions process
- A tour of St John's - Lunch and refreshments will be provided in the College.

## Lecture: "Using Brain Machine Interfaces to Overcome Disabilities"

Dr Sandra Campbell, Supernumerary Fellow in Physiology

## Lecture: "Neuroscience in Oxford: Four Centuries of Discovery"

Professor Zoltán Molnár, Tutorial Fellow in Human Anatomy

### Additional Optional Events

(led by current medical students)

- Ethics Workshop
- Demystifying the BMAT Test
  - Oxford Tutorial
- Interview Practice Session
